What impact do BoxUp stations have on quality of life and access to sports?

Accessibility to sports and the attractiveness of public spaces

Representative sample of more than 500 BoxUp users

User facts

Users visit the practice location at least once a month and do not have the borrowed equipment at home.

Impact on spaces

Users find the space more attractive with BoxUp and want to visit these spaces more often.

Impact on usage

Less athletic people plan to repeat an activity with BoxUp

People participate in an activity created with BoxUp

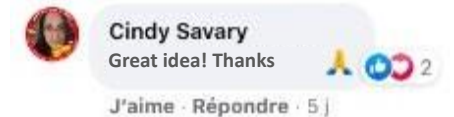

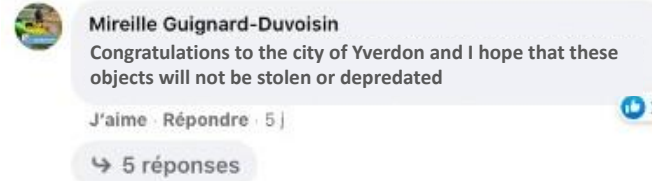

PRESS & FEEDBACK

"This is a fantastic start in South Dublin, and I'd encourage all local residents or visitors to the area, to download the free BoxUp app and using photo ID, create their account, so that they can enjoy using this free equipment in their local parks".

"The fight against physical inactivity is a major issue in Swiss public health policy. Several initiatives, such as the BoxUp application, are multiplying to encourage physical activity with the provision of free equipment."

BoxUp a real pleasure

Thank you very much for the excellent concept
It's a very nice solution to have fun with family or friends. The service behind the station is great. BRAVO

BoxUp

Wonderful concept, quality service.
I recommend all over the world the same project

★★★★★ 28.06.19

Great concept! There are objects for rent for everyone: to relax, to do sports or just to have fun. The application is, in addition to that, very intuitive. I recommend without hesitation :-)

OUR VISION

Durability

BoxUp designs products that are reputedly solid and fully repairable, made in Switzerland.

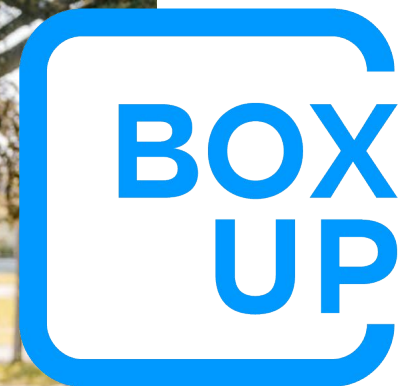

Accessibility and free of charge

BoxUp is committed to providing a solution that is accessible to the greatest number of people and free of charge to its users.
